Multiple times per year, the Institute of Public Health invites leading scientists to report on relevant topics from the multifaceted disciplines of public health. Following the lecture, participants have the opportunity to exchange ideas with the speaker, colleagues and students during a small reception.

The Institute of Public Health at the Charité - Universitätsmedizin Berlin seeks to improve public health at local, national and global levels through excellent and innovative research and teaching in public health. Epidemiology, health services research, innovative application and development of methods, and meta-research are some of the Institute’s focus areas. The Institute is headed by Prof. Dr. Dr. Tobias Kurth.

For an overview of all our events, see: https://iph.charite.de/en/events/

About the Lecture

„Scientific fraud: from Mendel to Stapel“

Scientific fraud, or better ‘questionable research practices’, are probably as old as science itself. Nowadays, however, there are national and supranational research codes on scientific integrity, academic institutions have installed committees to investigate suspected breaches of scientific integrity, and there is even some research into scientific integrity itself.

The lecture will address the relevance of appropriate research attitudes, and the risks of scientific misconduct, and discuss some actual cases, as well as the relation of scientific integrity to its neighbouring fields research ethics and research waste.

About the Lecturer

Frits R. Rosendaal is a medical doctor who is professor of Clinical Epidemiology at the Leiden University Medical Center (LUMC) in The Netherlands. His research is about cardiovascular disease, in particular blood coagulation, with a focus on aetiology and prognosis. He is co-chairman of the Committee on Scientific Integrity of the LUMC and Leiden University, and member of the CCMO, the national medical ethics committee. He is recipient of the Spinoza Award, the highest research prize in the Netherlands, and elected member of the Royal Academy of Arts and Sciences in the Netherlands, and the Academy Leopoldina in Germany.

Programme

Wednesday, 1 April 2020
4:00 pm

Welcoming Address
Prof. Dr. Dr. Tobias Kurth
Director of the Institute of Public Health Charité - Universitätsmedizin Berlin

Lecture (60 min.)
Frits R. Rosendaal
Leiden University

Reception

Next IPH-Lecture:
Thursday, 2 July 2020
4:00 pm
Kathryn M. Rexrode
Harvard Medical School
